CRIME!

Bad Work of the Liquor Men.

Who Make an Attempt to Assassinate a Fearless Prosecuting Attorney in Kansas.

The Terrible Destruction of Forest Fires in Wisconsin and the Losses.

ATTEMPTED MURDER.

Saloon Men Try to Kill a Prosecuting Attorney.

St. Louis, Aug. 16.—A special from Atchison, Kansas, says: "An attempt was made yesterday morning to assassinate J. F. Tufts, assistant attorney general for Atchison county. Tufts was recently appointed to the office for the express purpose of prosecuting saloon keepers, under the prohibition law. Saturday he secured a conviction and yesterday a keg containing twenty-five pounds of powder, mixed with nails, was exploded on the porch beneath his bedroom window. The windows were badly shattered, but no one was hurt. Governor Martin offers \$350 reward for the perpetrator."

FLAMING WISCONSIN.

Losses by the Fearful Ravage—Over 3,000 People Homeless.

MILWAUKEE, Aug. 16.—So wide is the territory traversed by the forest fires in northern and middle Wisconsin and so meagre the information as to actual extent of the damage that the losses can only be roughly approximated. The greatest damage was to standing timber, which is the source of wealth of this district. Portage, Marathon, Wood, Clark, Brown, Door and Calumet counties suffered most severely.

The number of homeless families is estimated at 700, representing some 3,500 people. Their individual losses are comparatively light, but in the aggregate reach over \$1,000,000 mostly uninsured. The cranberry marshes destroyed were among the largest in the country. As several years will be required to replace the bushes the loss is severe. It is estimated at \$200,000. Cattle and horses perished by the hundred. Many were suffocated or died from inability to obtain water. Hundreds of acres of grain and thousands of tons of hay were consumed.

Summarized, the loss to actual settlers about as follows, according to the estimates of people who have visited the regions devastated: At Spencer, \$250,000; Depere, \$70,000; near Colby, Unity, Milwaukee and elsewhere along the Wisconsin Central, \$250,000; in the vicinity of Green Bay and along the Door County Peninsula, \$400,000; Calumet, Chippewa and other counties, \$200,000. This of course, is exclusive of damage to lumber interests.

The Protestants Wrong.

LONDON, Aug. 16.—The Times again censures the protestants of Belfast for their refusal to submit to the authorities.

A rifle fight took place in Belfast by moonlight yesterday morning. At 5 o'clock the streets were charged by troops. One Orangeman was killed and two wounded. Many houses were riddled by bullets fired from roof-tops. A tavern owned by a Catholic was looted.

BELFAST, Aug. 16.—Noon.—The military withdrew from the streets at 1 o'clock this morning, and then the city was quiet. Trouble is feared to-night again.

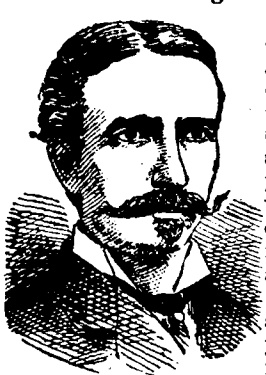

Big Failure.

New York, Aug. 16.—W. S. Abbey, jr., & Co., wholesale grocers have failed. Liabilities estimated at \$50,000; preferences, \$13,000; assets unknown.

THE GALATEA.

The English Cutter Yacht that Comes to Capture the Cup.

From a fact that has been said on this side of the Atlantic about J. Beavor Webb, the designer of the English yacht Genesta, and Galatea, one would have imagined him to be a bearded and grizzled old tar who had spent his whole life among tar ropes and canvas.

J. BEAVOR WEBB.

But in reality he is a type of a sporting gentleman. He is an enthusiastic student of sea racing, just as we will find young men giving their time and talents to the development of the turf and horseflesh. Mr. Webb has had the ambition since a youth of developing a type of yacht that would be the fleetest in the world, one that would capture the international challenge cup, known as the America's cup, which the yacht America won over all the yachts in Europe in 1851, and which has been successfully defended by American yachts on several occasions since. Britannia may rule the wave, but she cannot in truth be termed mistress of the seas as long as that cup remains on this side of the Atlantic. So with this purpose in view, Mr. Webb has been studying and designing yachts for years.

The Galatea is an improvement on the Genesta, and so confident is Mr. Webb of her success in the coming races that he has given up yacht building to come here and engage in other business.

Meeting him the other day in his sumptuous office in Wall street, New York, he said: "Yes, I am satisfied with the Galatea. She did not show her best work last season, owing to the lack of a proper crew, but with the continuous drilling they have had during their transatlantic voyage, we expect to show you some fast sailing, and if the Galatea carries the cup home with her, you may say 'by throwing a kiss with his fingers 'good-by' to the cup forever.'"

ON THE GALATEA'S DECK AT SEA.

The hopefulness of ever regaining the cup will not be due altogether to the lack of fast sailing qualities on the part of American yachts, but to the peculiarity of English yachting rules, which makes a virtue of small breadth of beam, so that the wider beam yachts of the Yankee type would have to give English yachts of the same length of keel a considerable time allowance, which would preclude their winning a race. Mr. Webb has suggested a mean of the yachting rules of both countries to govern these international contests, but neither side will listen to it.

Mr. Webb has come here as agent for the English manufacturers of corrugated steel boiler furnaces, which congress has recently permitted to enter free of duty.

Mr. Webb is an extremely modest man. He would not give any of his life romance to the press. But on it being suggested that he did not look like an Englishman he said: "No, I'm an Irishman, but do not say anything about that." So we refrain.

For thirty years or more the jolly British tar has been making yachting a scientific study, the result being the evolution of the cutter type of yacht, and with it the opportunity of recovering the America's cup. The challenge Mr. Webb sent last year was a double-barreled one. It was for the Genesta and also the Galatea, which was then on the stocks. The idea was that in case of not bringing down the America's cup with the first shot he would with the second. This challenge came at a time when the Americans were unusually ill-prepared. In running over the list of yachts we possessed it was found there was no sloop large enough to compete with the coming Britishers. But through the patriotic sportsmanship of a few gentlemen the Princeton and Puritan sprang into existence within the six months allowed between the reception of the challenge and the race. So the Puritan and the Genesta measured their speed side by side, and though the Genesta failed she became a gauge by which other English yachts' speed could be tested, and as the Galatea has proved herself faster than the Genesta, the chances of our losing the cup this year are exceedingly great.

MAIN SALOON OF GALATEA.

Lieut. Hen built the Galatea not only for the purpose of challenging for the America's cup, but also with the object of having a cruising yacht which would be a home for himself and wife. How far he has succeeded in the latter respect is shown in the accompanying view of Galatea's main saloon, taken from a photo by West. This view shows clearly that the narrow yacht, above all other forms, affords the best space to the designer for interior arrangements. An absolute breadth of fifteen feet on a deck entirely unobstructed, together with high bulkheads, gives a great deal of deck room, while the apartments below can only be equalled in a large steamer or schooner. The main saloon is nearly fifteen feet wide, a large and elegant apartment, as is seen from the drawing, with more than ample headroom. From it a long passage leads aft to the foot of the companion and to the ladies' or after cabin. On the starboard side is a large stateroom

with another on the same side forward of the saloon, while under the floor is a large space for sails and storage.

Since the Galatea arrived in this country there has been nothing from those who visited her but admiration for the courteousness of Lieutenant Hen—as his sailors call him—and his sailor wife, who accompanied him in his voyage of over a month across the Atlantic.

DOCTOR YOUNGE.

He is Fined \$25 and Given Ten Days in Jail for Contempt.

Dr. J. W. Younge was arraigned in court at 2 o'clock this afternoon before Judge Sinclair whose order to cease attacking the Tri-State Reunion association the doctor is alleged to have violated. Before 4 o'clock the court heard all the evidence and after the arguments, Judge Sinclair fined Dr. Younge \$25, and sentenced him to jail for ten days for contempt of court.

At 4 o'clock Dr. Younge was taken to jail and locked up to serve out his sentence unless his attorneys devise a scheme to get him out.

A Card From Marsh Wines.

To the Editor of THE SENTINEL.

WASHINGTON, Aug. 12, 1886.

My attention has been called to the following paragraph in the Fort Wayne Gazette of Sunday last, August 8th:

Billy Kaough was confirmed as postmaster a few minutes before the senate adjourned, and is all O. K. now. The telegram of Marsh Wines on Monday night was a little premature but it was sure.

To which I reply: Mr. Kaough was confirmed August 2d, three days before the adjournment of congress, as is shown by the records of the senate, and as is also set forth in the congressional record of Thursday, the 5th instant, No. 186, on pages 8548 and 8549. Therefore, it is not true that he "was confirmed as postmaster a few minutes before the senate adjourned." Nor is it true that my telegram was a little premature. If the editor of the Gazette would temper his malice with a modicum of correct information when he writes of certain persons he might occasionally stumble upon the truth, the telling of which would afford him a sensation that he has probably not heretofore experienced.

M. W. WINES.

Justice France sent five tramps to jail to-day.

The regular meeting of the City Y. M. C. A. takes place to-night.

The Wabash earnings for the first week in August, increased \$73,000.

The Pennsylvania company proposes to build a connecting link between Youngstown and Wheeland or Sharon, Penn., uniting the Erie and Pittsburg and the Pittsburg, Fort Wayne and Chicago roads. It will be an important feeder for freight from the north.

Among the bonds just listed on the New York exchange are the Grand Rapids & Indiana railroad consolidated five. The Grand Rapids and Indiana comprises 522 miles of main line and branches from Fort Wayne to the straits of Mackinaw. It is controlled by the Pennsylvania railroad, and the amount of the consol five authorized is \$13,000,000, of which only \$3,217,000 is outstanding, the balance being held in reserve, to take up all prior mortgages. These consol five are a third mortgage until the mortgages are taken up.

The republicans of the Thirtieth district of Indiana are likely to nominate for congress General Packard, of La Porte, who was relegated to private life for accepting the salary grab.

STORMS!

Sweep Wildly Over the Earth.

It Upsets a Chicago Building, Tears Down Signboards and Up-roots Shade Trees.

The Rain Stops the Progress of the Damaging Forest Fires and Revives Vegetation.

THE STORM.

Its Severity at Chicago and Elsewhere.

CHICAGO, Aug. 16.—A severe wind storm accompanied by torrents of rain and brilliant display of electricity, broke over this city at 4 o'clock this morning. The wind created all kinds of havoc among signs, awnings and chimneys and several accidents of a serious nature are reported. At the corner of Blue Island avenue and Hoine street a large three story building was blown to the ground.

CINCINNATI, Aug. 16.—The sultry air this morning was followed about nine o'clock with heavy black clouds from the north, which broke into a sudden and heavy rain. There was no wind, but abundant lightning. Between here and Columbus an unusual electrical storm is reported. The wires in nearly every direction are working badly.

MILWAUKEE, Aug. 16.—Wisconsin has been blessed by a refreshing rain storm unaccompanied by severe wind. The storm originated yesterday afternoon in Kansas.

NEWBURG, Ind., Aug. 16.—A tornado struck this place Saturday night. No lives are reported lost, but there is a vast destruction of property. Union Bethel mills was unroofed, and the top blown into the river. The residence of a Mr. Clark was blown down, the family barely escaping with their lives. The dwelling of T. M. Curtis was partly blown down, and his kitchen carried across the street. Dr. Fowler's residence was badly wrecked by a large upturned shade tree. The town is stripped of shade trees. The storm is said to have laid waste everything in its path toward Yanketown.

WABASH, Ind., Aug. 16.—A tremendous wind, rain and hail storm visited this section and continued to rage fiercely for an hour. Heavy shade trees were blown down in the city, and country orchards were, in many instances, badly damaged. The growing corn, however, sustained the most serious injury, especially in the southern part of the county. On the farm of Jacob Tyner, three miles out, the stalks in several fields were broken short off, and the loss is total. In other neighborhoods the corn is blown down, and will hardly rise again. The damage done in the county is pretty large.

MUNCIE, Ind., Aug. 16.—The past week in this locality has been one of much rain, accompanied at times by severe wind and hailstorms, doing, in some places, much damage to the growing corn crop. On Thursday night a heavy storm of hail passed through Harrison township. The path of the hailstorm was narrow, but every cornfield through which it passed was completely riddled.

AT RUSSIA.

LONDON, Aug. 16.—Central Russia, especially the Moscow district, has been devastated by tornadoes and waterpouts. Many buildings and bridges, and whole crops have been destroyed.

Fire Record.

EUREKA, Neb., Aug. 16.—The Geddes & Berland's mining mill, located in Seoret Canon, was destroyed by fire yesterday. Loss, \$200,000.

BURLINGTON, Ia., Aug. 16.—The dry goods store of C. B. Parsons partially burned yesterday. Loss, \$30,000; fully insured.

CHOICE BITS.

The News That is Culled for the "Sentinel" Readers.

Preparations to celebrate the centennial birthday of Mrs. Bethiah Hancock, at Richmond, Ind., were abruptly suspended by her death on Saturday.

Judge Conner, of the Wabash circuit court, on petition of Drs. R. F. Blount and A. J. Smith, and B. F. Williams, has issued a temporary injunction, restraining John Dickson, secretary and Oliver H. Bogue, treasurer of St. Anastasia Menul lodge of Odd Fellows, of Wabash, from paying out \$800 of the lodge's funds. On Wednesday night the members of the Canton of Patriarchs Militant, at a meeting of the subordinate lodge members sprung a resolution appropriating that amount in partial payment for new uniforms for the Patriarchs, and as but few subordinate lodge members were present, it went through. When the matter became known next day it created much turmoil among the fraternity, and the case is now temporarily, at least, in the courts.

As the dates for the congressional conventions in the eleventh district approach, interest in the contest grows apace. In addition to the five avowed candidates before the democratic convention, Major Kidd, of Wabash; Judge Bobo, of Decatur; Dr. Passage, of Peru; James McDowell, of Monon, and J. C. Brannan, of Huntington, it is understood that H. B. Smith, a banker of Hartford City, will, at the last moment, have his name placed in nomination. Hon. Hugh Dougherty, of Bluffton, is also regarded as a dark horse. Two years ago, when the district was democratic by from 200 to 300, but one or two democrats sought the honor; but now the fight among the candidates is becoming bitter, and the canvass is assuming a decidedly personal phase. Major Kidd's friends there are quite hopeful, and have made arrangements to turn out nearly all the party workers on the day of the convention at Portland, August 25. The contest, to the casual observer, now appears to lay between Major Kid and James Brannan, of Huntington, without either enjoying any apparent advantage.

Among republicans it is conceded that Major George W. Steele will be the nominee, although he does not seek a renomination.

The National Land League.

CHICAGO, Aug. 16.—The Irish demonstrations were great successes. At Ogden grove Michael Davitt was the orator of the day, and in reply to an address by the Irish societies, which was read, he took occasion to severely berate the so-called "professional Irishmen," and to give them to understand that there was a wide difference between Ireland and America in the conception of the Irish cause. At the driving park meeting speeches were made by Father Toomey, Hon. John Devoy, H. F. Donovan, E. L. Carey, and others and resolutions were adopted criticising the management of the Irish cause in this country, and calling for the selection of leaders in whom the public had confidence.

A Rumor of Capture Denied. ST. LOUIS, Aug. 16.—A special from Nogels, Arizona, says: "Couriers have arrived at Fort Huachuca from Lawton and Parker's commands and report no truth in the rumor of the former's capture. Lawton is still pursuing the hostiles, but is hampered by heavy rains."

THE LONDON TIMES note the arrival at the East India docks of a cargo of over 30,000 frozen carcasses of mutton from the Falkland Islands. Portions of the cargo sold at five pence per pound. As the islands now contain about 600,000 sheep, and the industry of raising them is rapidly increasing, there is room for a material extension of the supply to England. It may be that the new business will make quite a change in the British demand for our hog meats, which has recently been much larger than the mean, owing to a falling off in the shipments of mutton from Australia.

M. PASTEUR'S generosity and self-sacrifice in giving freely the fruits of his life's work to all comers without charge was warmly praised at a meeting of the Sanitary Institute of Great Britain. The great specialist in hydropneumonia did not patent his process, but gave information to all those who desired to learn, and also the virus to work with. Up to July 1st not less than 1,424 persons bitten by dogs had been treated by Pasteur, and of these only four had died.

President Cleveland and Party Leave Washington for the Adirondacks To-day.

GOV. HILL.

The World Figures Him Ahead of Cleveland.

NEW YORK, Aug. 16.—The World this morning in speaking of the presidential candidates says: "The national convention will certainly never nominate anybody against a delegation of his own state, and the interesting but absolute truth is, that if the state convention had to elect delegates to-day, it would unanimously endorse Mr. Cleveland's administration, but elect Hill delegates. Governor Hill controls the party organization completely, even more so than they did last year, when they secured his nomination against the perfectly well understood wishes of Cleveland, Manning, Whitney, etc."

SWIFT DEATH.

A Wife Poisoner Lynched in Arkansas.

LITTLE ROCK, Aug. 16.—News of the lynching of John Shorts, suspected of having poisoned his wife, was received here to-day, occurring on the Arkansas border fifty miles beyond Tellville. Shorts was a resident of Searcy county, this state. He moved from the Indian Territory last March. He was suspected by the neighbors of being a counterfeiter, as he had no visible means of support, yet always had plenty of money. Some days ago he disappeared, leaving his house securely fastened. The door was broken in and the body of his wife found lying on the floor. She had evidently died from poison. Several men started in pursuit of Shorts, intending to lynch him, and reports received show that they carried the design into effect.

The President Off for the Mountains.

WASHINGTON, Aug. 16.—The president left Washington this morning at 9:40 o'clock, for his summer vacation at the Adirondack mountains, in company with Mrs. Cleveland, Mrs. Folsom and Colonel and Mrs. Lamont.

The Anarchists.

CHICAGO, Aug. 16.—It is not generally understood in Chicago that the anarchists are on trial on the indictment for murder only, and are liable to be tried again for conspiracy and riot. The jury will not probably be sent out before Friday night.

TALKING of temporary presiding officers of the Senate, it is said that Mr. Palmer amuses himself while in the Chair by writing terribly bad poetry—there are no words that he will not make rhyme with each other; Gen. Hawley sketches caricatures of his colleagues. Mr. Mauders tells stories in an undertone to his fellow-members whom he calls to his side. Mr. Fryc writes letters to children in words of one syllable, and Mr. Harris goes to sleep.

In Alaska the salmon jump the estuaries and inlets so that the fish cannot move at all. A recent visitor says "the outlet at Lake Loring, which is a rivulet two miles long and two rods wide, connecting the salt water with the fresh, is so clogged with living salmon that if a plank were laid across their protruding backs a man could walk across dry shod. One can lift them out with his hands until he is tired. It is almost impossible not to thrust a spear or a boat hook into the mass, and, of course, a fish must come out whenever it is withdrawn. Bears take their opportunity to scoop them out with their great paws, and when they have regaled themselves to satiety they retire to the adjacent thickets for a desert of berries, which grow in abundance and variety. Of course, a great many salmon get into the lake at every tide, but after each recession multitudes are stranded, of which the lustiest flop back to the ocean, while the maimed and hapless remain dead and stranded on the denuded rocks."

AFTER the arrest of the defaulting treasurer of the Baptist Publication Society of Philadelphia, that individual turned over to the authorities a large quantity of stocks and bonds which he had purchased with the "borrowed" funds. These "securities," mostly mining stocks, range in value from thirty cents a share to nothing, the cost having been eighty cents and over in most cases. On several lots no quotations can be obtained. One is mentioned as having fallen from ten cents to one cent a share recently, while one thousand shares of another is said to have been offered for \$1 for the lot with no takers. This showing is probably very much such a one as any inexperienced speculator could make whether the money invested were his own or other people's; but the smart young man who goes into this sort of business invariably "knows all about the market," and until he is left flat on his back can give what he regards as valuable points to the oldest and shrewdest broker.

The new postal card design adopted about a year ago will soon be superseded by another. When the last change of design was made there was some occasion for haste, and there was difficulty about getting rid of certain notions about the card that experience has removed. Mr. Vilas last year took the best of designs offered. It was an improvement, but still not entirely satisfactory. The new design will at once be accepted as an improvement upon that now in use. It consists of one piece of engraving instead of two pieces, as on the present card. A head of Jefferson, a miniature portrait after the original in the State Department, occupies a central place on the upper third of the card. Over this head, in light letters, are the words, "United States." In panels, supported by scroll work at the left and right are the words, "postal card" in distinct letters. Under the head are the words "one cent," and beneath the border line enclosing the designation of value is the line, "Nothing but the address to be on this side." The design is graceful and light, and its advantage over the old one is that the idea of putting the stamp off at one side and the designation of the article at the opposite side is abandoned to secure an exclusive design with the strongest feature of it in the center. The Postmaster General may decide to print the new cards on white paper, in black ink, for the reason that white paper furnishes a better ground for written characters, helping the postoffice clerks who are compelled to decipher addresses, and for the other reason that the brown ink is complained of by the printers who use it as more troublesome to obtain good work with than the same quality of black ink.

AMONG the patients at the New Jersey lunatic asylum at Morris Plains is a man who is subjected to very little restraint, and whose insanity is only occasionally manifested. Several days ago, says the New York Herald, the Rev. Dr. Burchard, whose advocacy proved so disastrous to Mr. Blaine, visited the asylum and was shown through the building by Warden Monroe. Presently they came to the mild-mannered lunatic alluded to, and Mr. Burchard recognized him as the son of a former parishioner. Greetings were exchanged in a hearty manner, and the doctor asked: "Well, what brings you here?" "Hum, Romanism, and Rebellion" was the solemn response of the patient, who slyly winked at the warden. "Ah!" said the Doctor, and passed on.

A PHYSICIAN in the interior of the State recently wrote to the State Controller at Albany, N. Y., for a copy of a prescription for an infallible remedy for hydrophobia, on account of which the State appropriated \$1,000 in 1806 to pay to one John M. Crons, who claimed to have discovered the cure. A search for the paper resulted in the finding of the warrant upon which the money had been paid, and upon the back of it was written the receipt of Dr. Crons, dated March 25, 1806. The story of the transaction is a curious revelation of legislative jobbery eighty years ago. Crons was a Hessian soldier in the Revolutionary War, who deserted and found his way to the brick village of Athens, then called Lungenberg, on the Hudson. Here he lived in a little Dutch stone house for many years, practicing upon the credulity and fears of the primitive people about there. He pretended to be a physician, and achieved a local reputation by alleging that he had discovered an infallible remedy for hydrophobia. Some simple legislators in the vicinity was persuaded to introduce a bill for the purchase and publication of the secret by the State. Crons wanted \$1,000, and a bill appropriating that amount passed the Senate and was finally fought through the Assembly. Among those who advocated the measure was De Witt Clinton, Ambrose Spencer, Chancellor Kent, Joseph C. Yates, and others. The bill provided that Crons should give an indemnity bond of \$2,000 to protect the State should the remedy, after a fair trial of four years, prove deceptive and inefficient. This, after some difficulty in a search for bondsmen, he did. He then returned to Athens and prospered by the boom given to his reputation through the State's action. He invested in real estate and at one time owned the well-known Round-Top property in the Catskill Mountains. He is supposed to have died poor, however, and none of his descendants is now known of. The prescription was not found in the Controller's office, evidently having been stolen. The Albany Gazette of March 31, 1806, was found to contain a copy. The remedy was compounded of one ounce of the jaw-bone of a dog, burned and pulverized, the false tongue of a newly-fledged colt, dried and pulverized, and a scruple of verdigrise, raised on the surface of old copper by laying it in moist earth. Directions for treatment followed, involving, in a certain contingency, a dose of 120 drops of liquid laudanum.

A SCIENTIFIC FACT.

"Royal" the only Baking Powder Free from Lime and Absolutely Pure.

Lime is the serious defect found in most of the cream of tartar baking powders. As a matter of fact, chemical analysis has found it in all such powders except the "Royal." Its presence is caused by the use of adulterated cream of tartar in the effort to reduce their cost of production.

Lime adds to the weight, while it detracts from the strength of the baking powder. It also renders the food less wholesome, giving rise to dyspepsia and kindred ailments. Baking powders containing lime produce less leavening gas, and therefore in use are more expensive than a first-class, pure article.

The Royal Baking Powder is made from cream of tartar that is first specially refined and made chemically pure. No tartrate of lime or other impurity can find its way into the "Royal," and to this fact its great superiority in strength, wholesomeness and keeping quality is due.

All this adds greatly to the cost of manufacturing the Royal Baking Powder, but as all its ingredients are selected and prepared with the same precise care and regardless of labor or expense, an article is produced that is free from every extraneous substance—"absolutely pure." Nor does it contain any ingredients except those necessary to make a pure, wholesome and perfect baking powder.

Prof. McMurtrie, late chemist in chief to the U. S. Department of Agriculture, after analyzing the cream of tartar used by the various baking powders of the market, testifies to the absolute purity of that employed in the Royal Baking Powder as follows:

"I have examined the cream of tartar manufactured for and used by the Royal Baking Powder Company in their baking powder, and find it to be perfectly pure and free from lime in any form."

Prof. Love, who made the analyses of baking powders for the N. Y. State Board of Health, as well as for the Government, certifies to the purity and wholesomeness of the Royal.

Dr. E. H. Bartley, chemist of the Brooklyn, N. Y., Department of Health, says: "I have recently analyzed samples of the Royal Baking Powder purchased by myself in the stores of this city, and find it free from lime in any form."

Bread, cake, biscuits, &c., prepared with Royal Baking Powder, will be lighter, sweeter and more wholesome than if made with any other baking power or leavening agent.

REPORT OF CHIEF OF POLICE.

I respectfully report that the electric lights were found not burning 1,705 hours during the month of July, 1888.

HUGH M. DIEHL,
Chief of Police.

I respectfully report that I have deducted from the Electric Light Company's bill for the month of July, 1888, \$2.75, for 1,705 hours, at 5 cents per hour.

REPORT OF COMMITTEE ON PUBLIC GROUNDS AND BUILDINGS.

We your committee on public grounds and buildings wish to make the following report:

1. We have awarded the contract to Charles A. Shart for repairing the roof on the city hall and market house to Gruber & Gray for the painting of the city hall and market house.

CHAS. F. HANSEN,
Com. LEVY GRUBER, Com.

Adopted.

REPORT OF THE CITY CIVIL ENGINEER.

In regard to the improvement of Murray street I will report that the contractor, Wm. Moellering, has failed to comply with the terms of his contract for said work, in using bad material, in the construction of said street improvement; stone that I condemned as unfit to be used, and far from being such as are required by the specification and contract, he persistently used and placed on said street; when I again protested against the same stone being used in the work, and at the same time ordered them removed entirely away from the work, which he (Moellering) obstinately refused. I then ordered him to stop work at once, as he would get no pay for what he was doing, as I would not make an estimate on work not done in accordance with specification for the same. I have ordered him repeatedly to remove all the condemned or rejected material away from the work, which he still refuses to do, and claims that he is doing his work by the advice of an attorney; and as he is working under the advice of his attorney, I would simply suggest that we work upon the advice of our attorney.

2. In the matter of the outlet for the extension of the Clinton street sewer south of Hamilton street, referred to me by your honorable body, I will report that in disposing of the sewer from the proposed extension, it must necessarily pass through a private sewer belonging to the Wabash, St. Louis and Pacific railway and the Pittsburgh, Fort Wayne and Chicago railway in common. And in order to show a disposition on the part of the city not to crowd the capacity of this sewer, will recommend that instead of a 3-foot double ring brick sewer, to make it a 24-inch clay pipe sewer, which will furnish ample drainage, as the fall from DeWald street to Hamilton street will be 10 feet to 1,000 feet.

J. S. JOHNSON,
City Civil Engineer.

Section 1 concurred in and referred to city attorney. Section 2 concurred in.

REPORT OF CITY CLERK.

According to instructions of your honorable body I have notified the owner of the old ashery to have the same torn down.

REPORT OF STREET COMMISSIONER.

I wish to report that considerable dirt has been washed away from around the mouth of the 24-inch creek pipes on Wabash avenue and

Humphrey street, and Grant avenue and East Wayne street. Some of the present joints have already fallen away, and before any more damages would occur, I would recommend that a brick or stone walk 5 or 6 feet in height and 8 or 10 feet wide be built to protect the pipes and embankment.

At a regular meeting of the council last May, Councilman Scheld offered a resolution, and was adopted by the council, instructing me to notify Fred J. Hayden to fill or drain a pond of stagnant water remaining on his premises between Creighton avenue and Thomas street, would report that I have notified Mr. Hayden three or four times, but have failed to comply with said notices. I took no action in the matter until further instructed by the common council.

D. O'BRIEN,
Street Commissioner.

Section 1 referred to the committee on streets and alleys. Section 2 referred to the city attorney.

REPORT OF CITY TREASURER.

1. I most respectfully report that I have collected and paid to the city treasurer the sum of \$79 for the month of July, 1888.

2. I also call the attention of your honorable body to the ordinance now in force regulating the measuring of wood, weighing of coal and hay. I believe they should be amended also there is an ordinance in force prohibiting farmers from standing on the east side of market street. This ordinance, in my opinion, should be repealed.

PATRICK RYAN,
City weighmaster.

Section 1 referred to the committee on finance. Section 2 referred to the committee on rules, regulations and ordinances.

I hereby report that I have collected during the month of July, 1888, pound fees amounting to \$1.25, which sum I have paid into the city treasury.

Ewing's grove, this hot weather, is a great resort for the young people. Swings and seats have been put up under the broad, spreading elms and in a corner of the grove a ball ground has been laid out, where numerous contests between local nines take place. All day yesterday crowds of girls and boys were in the grove engaged in various sports, as best suited their tastes. The place has the semblance of a park and the large number of our citizens who are drawn there by the few attractions it affords, forcibly illustrate the want of a park in this city.

Summer tourists are coming home. Heavy rains would injure the encampment grounds.

A scheme is now being considered by the Knights of Labor which is of vast importance to local coal dealers. They contemplate a combination for the purchase of their coal for the coming winter. The plan is as follows: After learning the amount of coal each member of the order is likely to consume, a purchasing committee will be appointed to wait upon dealers and get figures per ton on the whole amount. Coal men from abroad will be consulted as well as local dealers, and the contract will be let to the lowest bidder. The Knights are several hundred strong in this city, and if the foregoing scheme is put in operation the result will be disastrous to some of our coal dealers.

W. Wright Rockhill, the pleasant city clerk, writes a member of The Sentinel staff from Narragansett Pier that he expects to be home this week. Mr. Rockhill has received copies of Fort Wayne papers containing letters alleged to have been written by him and articles saying he was at Cape May. Mr. Rockhill writes that he is willing the newspaper men shall enjoy themselves at his expense, but he cannot see much fun in it himself, as he has been sick almost continuously since he left until two weeks ago. KILLED HIMSELF.
Alvan Sorg Sends a Bullet Through His Brain.

Yesterday afternoon Alvan Sorg sauntered to the bank of the St. Joe river, near the Tivoli garden, and without any preliminaries sent a bullet through his skull. He held the pistol, an ordinary weapon to his head, to the front of and above his right ear. Death was instantaneous and his suffering was brief.

The suicide was witnessed by a gentleman and two ladies and when they approached the young man he was a corpse. The dead man was speedily recognized as Alvin Sorg, an employee of Trinkley & Scherzinger. Mr. Primus Scherzinger was his uncle and it seems he has long been eccentric. About a year ago his freak was to fast, until he almost starved himself to death. He has never been in the best of health, but managed to be about the jewelry store and did some work there. No one believed he would end his life as he did and yesterday he left no intimation of his intention.

Deputy Coroner Stelthorn held an inquest in accordance with the above facts and at 3 o'clock this afternoon the suicide was buried. The young man left Germany to avoid army service and the fact that he was liable to arrest on return there preyed on his mind.

New Occasions

Teach New Duties.

With the opening of the Lafayette branch of our immense Carpet and Furniture business comes a large increase in our sales, which calls for a corresponding reduction in profits.

We shall not disappoint you. For every dollar you have to spend we will guarantee you more and better goods than can be purchased even in the largest stores of our largest cities.

A personal inspection is all that is needed to convince you of the truth of what we say.

People living in the surrounding towns cannot afford to pay the prices of their home merchants, which are usually one-third higher than ours.

CARPETS!

Our stock of Carpets is now very complete and contains the handsomest productions of all the celebrated looms of the country such as

Lowell's, Bromley's,
Hartford's, Whitall's,
Bigelow's, Horner's,
Roxbury's, Smith's,
Stinson's, Fremont's.

Experience has taught us that the best carpets are the cheapest.

We shall not seek to secure your trade by selling you poor goods at low prices. By that method we might sell you once but hardly again.

We want every carpet we sell this fall to be a constant advertisement of the kind of goods we handle.

Bad Work of the Liquor Men.

Who Make an Attempt to Assassinate a Fearless Prosecuting Attorney in Kansas.

The Terrible Destruction of Forest Fires in Wisconsin and the Losses.

ATTEMPTED MURDER.

Saloon Men Try to Kill a Prosecuting Attorney.

St. Louis, Aug. 16.—A special from Atchison, Kansas, says: "An attempt was made yesterday morning to assassinate J. F. Tufts, assistant attorney general for Atchison county. Tufts was recently appointed to the office for the express purpose of prosecuting saloon keepers, under the prohibition law. Saturday he secured a conviction and yesterday a keg containing twenty-five pounds of powder, mixed with nails, was exploded on the porch beneath his bedroom window. The windows were badly shattered, but no one was hurt. Governor Martin offers \$350 reward for the perpetrator."

FLAMING WISCONSIN.

Losses by the Fearful Ravage—Over 3,000 People Homeless.

MILWAUKEE, Aug. 16.—So wide is the territory traversed by the forest fires in northern and middle Wisconsin and so meagre the information as to actual extent of the damage that the losses can only be roughly approximated. The greatest damage was to standing timber, which is the source of wealth of this district. Portage, Marathon, Wood, Clark, Brown, Door and Calumet counties suffered most severely.

The number of homeless families is estimated at 700, representing some 3,500 people. Their individual losses are comparatively light, but in the aggregate reach over \$1,000,000 mostly uninsured. The cranberry marshes destroyed were among the largest in the country. As several years will be required to replace the bushes the loss is severe. It is estimated at \$200,000. Cattle and horses perished by the hundred. Many were suffocated or died from inability to obtain water. Hundreds of acres of grain and thousands of tons of hay were consumed.

Summarized, the loss to actual settlers is about as follows, according to the estimates of people who have visited the regions devastated: At Spencer, \$250,000; Depere, \$70,000; near Colby, Unity, Milwaukee and elsewhere along the Wisconsin Central, \$250,000; in the vicinity of Green Bay and along the Door County Peninsula, \$400,000; Calumet, Chippewa and other counties, \$200,000. This of course, is exclusive of damage to lumber interests.

The Protestants Wrong.

LONDON, Aug. 16.—The Times again censures the protestants of Belfast for their refusal to submit to the authorities.

A rifle fight took place in Belfast by moonlight yesterday morning. At 5 o'clock the streets were charged by troops. One Orangeman was killed and two wounded. Many houses were riddled by bullets fired from roof-tops. A tavern owned by a Catholic was looted.

BELFAST, Aug. 16.—Noon.—The military withdrew from the streets at 1 o'clock this morning, and then the city was quiet. Trouble is feared to-night again.

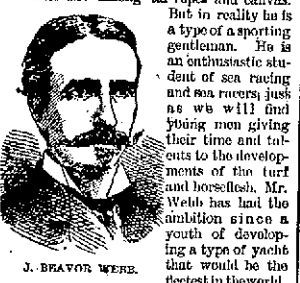

Big Failure.

New York, Aug. 16.—W. S. Abbey, jr., & Co., wholesale grocers have failed. Liabilities estimated at \$50,000; preference, \$13,000; assets unknown.

THE GALATEA.

The English Outter Yacht that Comes to Capture the Cup.

From all that has been said on this side of the Atlantic about J. Benor Webb, the designer of the English yachts Genesta and Galatea, one would have imagined him to be a bearded and grizzled old tar who had spent his whole life among tar ropes and canvas.

But in reality he is a type of a sporting gentleman. He is an enthusiastic student of sea racing and sea races just as we will find young men giving their time and talents to the development of the turf and horseflesh. Mr. Webb has laid the Galatea since a youth of developing a type of yacht that would be the fastest in the world.

one that would capture the international challenge cup, known as the America's cup, which the yacht America won over all the yachts in Europe in 1851, and which has been successfully defended by American yachts on several occasions since. Britannia may rule the waves, but she cannot in truth be termed mistress of the seas as long as that cup remains on this side of the Atlantic. So with this purpose in view, Mr. Webb has been studying and designing yachts for years.

The Galatea is an improvement on the Genesta, and so confident is Mr. Webb of her success in the coming races that he has given up yacht building to come here and engage in other business.

Meeting him the other day in his spacious office, in Wall street, New York, he said: "Yes, I am satisfied with the Galatea. She did not show her best work last season, owing to the lack of a proper crew, but with the continuous drilling they have had during their transatlantic voyage, we expect to show you some fast sailing, and if the Galatea carries the cup home with her, you may say (throwing a kiss with his fingers) 'good-bye to the cup forever.'"

ON THE GALATEA'S DECK AT SEA. The hopefulness of even capturing the cup will not be due altogether to the lack of fast sailing qualities on the part of American yachts, but to the peculiarity of English yachting rules, which makes a virtue of small breadth of beam, so that the wider beam yachts of the Yankee type would have to give English yachts of the same length of keel a considerable time allowance, which would preclude their winning a race.

Mr. Webb has come here as agent for the English manufacturers of corrugated steel boiler furnaces, which congress has recently permitted to enter free of duty. Mr. Webb is an extremely modest man. He would not give any of his life romance to the press. But on it being suggested that he did not look like an Englishman he said: "No, I am an Irishman, but do not say anything about that." So we refrain.

For thirty years or more the jolly British tar has been making yachting a scientific study, the result being the evolution of the cutter type of yacht, and with it the opportunity of recovering the America's cup. The challenge Mr. Webb sent last year was a double-barreled one. It was for the Genesta and also the Galatea, which was then on the stocks. The idea was that in case he did not bring down the America's cup with the first shot he would with the second. This challenge came at a time when the Americans were unusually ill-prepared. In running over the list of yachts we possessed it was found there was no ship large enough to compete with the coming Britishers. But through the patriotic sportsmanship of a few gentlemen the Princeton and Corinth sprung into existence within the next month allowed between the reception of the challenge and the race. No the Princeton and the Genesta measured their speed side by side, and though the Genesta failed to become a gauge by which other English yachts could be tested, and as the Galatea has proved herself faster than the Genesta, the chances of our losing the cup this year are exceedingly great.

MAIN SALOON OF GALATEA. Lieut. Hunt built the Galatea not only for the purpose of challenging for the America's cup, but also with the object of having a cruising yacht which would be a home for himself and wife. How far he has succeeded in the latter respect is shown in the accompanying view of Lieut. Hunt's main saloon, taken from a photo by West. This view shows clearly that the narrow yacht, above all other forms, affords the best space to the designer for interior arrangements. An absolute breadth of fifteen feet on a deck entirely unobstructed, together with high bulwarks, gives a great deal of deck room, while the apartments below can only be equaled in a large steamer or schooner. The main saloon is nearly fifteen feet wide, a large and elegant apartment, as is seen from the drawing, with more than ample bowroom. From a long passage leads out to the foot of the companion and to the ladies' or after cabin. On the starboard side is a large stateroom

with another on the same side forward of the saloon, while under the floor is a large space for sails and stores. Since the Galatea arrived in this country there has been nothing from those who visited her but admiration for the courteousness of Lieut. Hunt—as his sailors call him—and his sailor wife, who accompanied him in his voyage of over a month across the Atlantic.

DOCTOR YOUNGE.

He is Fined \$25 and Given Ten Days in Jail for Contempt.

Dr. J. W. Younge was arraigned in court at 2 o'clock this afternoon before Judge Sinclair whose order to cease attacking the Tri-State Reunion association the doctor is alleged to have violated. Before 4 o'clock the court heard all the evidence and after the arguments, Judge Sinclair fined Dr. Younge \$25, and sentenced him to jail for ten days for contempt of court.

At 4 o'clock Dr. Younge was taken to jail and locked up to serve out his sentence unless his attorneys devise a scheme to get him out.

A Card From Marsh Wines.

To the Editor of THE SENTINEL.

WASHINGTON, Aug. 12, 1886.

My attention has been called to the following paragraph in the Fort Wayne Gazette of Sunday last, August 8th:

Billy Kaough was confirmed as postmaster a few minutes before the senate adjourned, and is all O. K. now. The telegram of Marsh Wines on Monday night was a little premature but it was sure.

To which I reply: Mr. Kaough was confirmed August 2d, three days before the adjournment of congress, as is shown by the records of the senate, and as is also set forth in the congressional record of Thursday, the 5th instant, No. 186, on pages 8548 and 8549. Therefore, it is not true that he "was confirmed as postmaster a few minutes before the senate adjourned." Nor is it true that my telegram was a little premature. If the editor of the Gazette would temper his malice with a modicum of correct information when he writes of certain persons he might occasionally stumble upon the truth, the telling of which would afford him a sensation that he has probably not heretofore experienced.

M. W. WINES.

Justice Franco sent five tramps to jail to-day.

The regular meeting of the City Y. M. C. A. takes place to-night.

The Wabash earnings for the first week in August, increased \$73,000.

The Pennsylvania company proposes to build a connecting link between Youngstown and Wheeland or Sharon, Penn., uniting the Erie and Pittsburg and the Pittsburg, Fort Wayne and Chicago roads. It will be an important feeder for freight from the north.

Among the bonds just listed on the New York exchange are the Grand Rapids & Indiana railroad consolidated bonds. The Grand Rapids and Indiana comprises 522 miles of main line and branches from Fort Wayne to the straits of Mackinaw. It is controlled by the Pennsylvania railroad, and the amount of the consolidated bonds authorized is \$13,000,000, of which only \$3,217,000 is outstanding, the balance being held in reserve, to take up all prior mortgages. These consolidated bonds are a third mortgage until the mortgages are taken up.

The republicans of the Thirteenth district of Indiana are likely to nominate for congress General Pickard, of LaPorte, who was relegated to private life for accepting the salary grab.

STORMS!

Sweep Wildly Over the Earth.

It Upsets a Chicago Building, Tears Down Signboards and Up-roots Shade Trees.

The Rain Stops the Progress of the Damaging Forest Fires and Revives Vegetation.

THE STORM.

Its Severity at Chicago and Elsewhere.

CHICAGO, Aug. 16.—A severe wind storm accompanied by torrents of rain and brilliant display of electricity, broke over this city at 4 o'clock this morning.

The wind created all kinds of havoc among signs, awnings and chimneys and several accidents of a serious nature are reported. At the corner of Blue Island avenue and Holme street a large three story building was blown to the ground.

CINCINNATI, Aug. 16.—The sultry air this morning was followed about nine o'clock with heavy black clouds from the north, which broke into a sudden and heavy rain. There was no wind, but abundant lightning. Between here and Columbus an unusual electrical storm is reported. The wires in nearly every direction are working badly.

MILWAUKEE, Aug. 16.—Wisconsin has been blessed by a refreshing rain storm unaccompanied by severe wind. The storm originated yesterday afternoon in Kansas.

NEWBURGH, Ind., Aug. 16.—A tornado struck this place Saturday night. No lives are reported lost, but there is a vast destruction of property. Union Bethel mills was unroofed, and the top blown into the river. The residence of a Mr. Clark was blown down, the family barely escaping with their lives.

The dwelling of T. M. Curtis was partly blown down, and his kitchen carried across the street. Dr. Fowler's residence was badly wrecked by a large upturned shade tree. The town is stripped of shade trees. The storm is said to have laid waste everything in its path toward Yankeeetown.

WARREN, Ind., Aug. 16.—A tremendous wind, rain and hail storm visited this section and continued to rage fiercely for an hour. Heavy shade trees were blown down in the city, and country orchards were, in many instances, badly damaged. The growing corn, however, sustained the most serious injury, especially in the southern part of the county. On the farm of Jacob Tyner, three miles out, the stalks in several fields were broken short off, and the loss is total. In other neighborhoods the corn is blown down, and will hardly rise again. The damage done in the county is pretty large.

MUNCIE, Ind., Aug. 16.—The past week in this locality has been one of much rain, accompanied at times by severe wind and hailstorms, doing, in some places, much damage to the growing corn crop. On Thursday night a heavy storm of hail passed through Harrison township. The path of the hailstorm was narrow, but every cornfield through which it passed was completely riddled.

AT RUSSIA.

LONDON, Aug. 16.—Central Russia, especially the Moscow district, has been devastated by tornadoes and waterspouts. Many buildings and bridges, and whole crops have been destroyed.

Fire Record.

ENRICK, Neb., Aug. 16.—The Geddes & Berland's mining mill, located in Secret Canon, was destroyed by fire yesterday. Loss, \$200,000.

BURLINGTON, Ia., Aug. 16.—The dry goods store of C. B. Parsons partially burned yesterday. Loss, \$30,000; fully insured.

CHOICE BITS.

The News That is Culled for the "Sentinel" Readers.

Preparations to celebrate the centennial birthday of Mrs. Bathsh Hancock, at Richmond, Ind., were abruptly suspended by her death on Saturday.

Judge Conner, of the Wabash circuit court, on petition of Drs. R. F. Blount and A. J. Smith, and D. F. Williams, has issued a temporary injunction, restraining John Dickson, secretary and Oliver H. Boggs, treasurer of St. Ann's Maria Men's Lodge of Odd Fellows, of Wabash, from paying out \$800 of the lodge's funds. On Wednesday night the members of the Canton of Patriarchs Militant, at a meeting of the subordinate lodge members sprung a resolution appropriating that amount in partial payment for new uniforms for the Patriarchs, and as but few subordinate lodge members were present, it went through. When the matter became known next day it created much turmoil among the fraternity, and the case is now temporarily, at least, in the courts.

As the dates for the congressional conventions in the eleventh district approach, interest in the contest grows apace. In addition to the five avowed candidates before the democratic convention, Major Kidd, of Wabash; Judge Bobo, of Decatur; Dr. Passage, of Peru; James McDowell, of Monon, and J. O. Brannan, of Huntington, it is understood that H. B. Smith, a banker of Hartford City, will, at the last moment, have his name placed in nomination. Hon. Hugh Dougherty, of Bluffton, is also regarded as a dark horse. Two years ago, when the district was democratic by from 200 to 300, but one or two democrats sought the honor; but now the fight among the candidates is becoming bitter, and the canvass is assuming a decidedly personal phase. Major Kidd's friends there are quite hopeful, and have made arrangements to turn out nearly all the party workers on the day of the convention at Portland, August 25. The contest, to the casual observer, now appears to lay between Major Kid and James Brannan, of Huntington, without either enjoying any apparent advantage.

Among republicans it is conceded that Major George W. Steele will be the nominee, although he does not seek a renomination.

The National Land League.

CHICAGO, Aug. 16.—The Irish demonstrations were great successes. At Ogden grove Michael Davitt was the orator of the day, and in reply to an address by the Irish societies, which was read, he took occasion to severely berate the so-called "professional Irishmen," and to give them to understand that there was a wide difference between Ireland and America in the conception of the Irish cause. At the driving park meeting speeches were made by Father Toomey, Hon. John Devoy, H. F. Donovan, E. L. Carey, and others and resolutions were adopted criticizing the management of the Irish cause in this country, and calling for the selection of leaders in whom the public had confidence.

A Rumor of Capture Denied.

St. Louis, Aug. 16.—A special from Nogels, Arizona, says: "Couriers have arrived at Fort Huachuca from Lawton and Parker's commands and report no truth in the rumor of the former's capture. Lawton is still pursuing the hostiles, but is hampered by heavy rains."

THE LOW ON TIMES note the arrival at the East India docks of a cargo of over 30,000 frozen carcasses of mutton from the Falkland Islands. Portions of the cargo sold at five pence per pound. As the islands now contain about 600,000 sheep, and the industry of raising them is rapidly increasing, there is room for a material extension of the supply to England. It may be that the new business will make quite a change in the British demand for our hog meats, which has recently been much larger than the mean, owing to a falling off in the shipments of mutton from Australia.

M. PASTERNAK'S generosity and self-sacrifice in giving freely the fruits of his life's work to all comers without charge was warmly praised at a meeting of the Sanitary Institute of Great Britain. The great specialist in hydrophobia did not patent his process, but gave information to all those who desired to learn, and also the virus to work with. Up to July 1st not less than 1,424 persons bitten by dogs had been treated by Paster, and of those only four had died.

HILL!

Controls New York Machine Politics

And It is Predicted the Governor Will Get the Delegates of that State for President.

President Cleveland and Party Leave Washington for the Adirondacks To-day.

GOV. HILL.

The World Figures Him Ahead of Cleveland.

New York, Aug. 16.—The World this morning in speaking of the presidential candidates says: "The national convention will certainly never nominate anybody against a delegation of his own state, and the interesting but absolute truth is, that if the state convention had to elect delegates to-day, it would unanimously endorse Mr. Cleveland's administration, but elect Hill delegates, Governor Hill controls the party organization completely, even more so than they did last year, when they secured his nomination against the perfectly well understood wishes of Cleveland, Manning, Whitney, etc."

SWIFT DEATH.

A Wife Poisoner Lynched in Arkansas.

LITTLE ROCK, Aug. 16.—News of the lynching of John Short, suspected of having poisoned his wife, was received here to-day, occurring on the Arkansas border fifty miles beyond Tiptonville. Short was a resident of Searcy county, this state. He moved from the Indian Territory last March. He was suspected by the neighbors of being a counterfeiter, as he had no visible means of support, yet always had plenty of money. Some days ago he disappeared, leaving his home securely fastened. The door was broken in and the body of his wife found lying on the floor. She had evidently died from poison. Several men started in pursuit of Short, intending to lynch him, and reports received show that they carried the design into effect.

The President Off for the Mountains.

WASHINGTON, Aug. 16.—The president left Washington this morning at 9:40 o'clock, for his summer vacation at the Adirondack mountains, in company with Mrs. Cleveland, Mrs. Folson and Colonel and Mrs. Lamont.

Oil Discovered in France.

PARIS, Aug. 16.—A spring, from which flows petroleum of a fine quality, has been discovered at Perrand-Auvergne, an estate of M. Alfred Arbaux. This is the first petroleum discovery that has been made in France.

The Anarchists.

CHICAGO, Aug. 16.—It is not generally understood in Chicago that the anarchists are on trial on the indictment for murder only, and are liable to be tried again for conspiracy and riot. The jury will not probably be sent out before Friday night.

NEW YORK, Aug. 16.—Irish delegates to the Chicago Irish National League convention, Messrs. O'Brien, Deasy and Reimond, arrived from Europe on the steamer Servia this morning.

Ewing's grove, this hot weather, is a
great resort for the young people.
Swings and seats have been put up un-
der the broad, spreading elms and in a
corner of the grove a ball ground has
been laid out, where numerous contests
between local players take place. All day
yesterday crowds of girls and boys were
in the grove engaged in various sports,
as best suited their tastes. The place
has the semblance of a park and the
large number of our citizens who are
drawn there by the few attractions it af-
fords, forcibly illustrate the want of
a park in this city.

General Master Mechanic Barnes was
in the city yesterday. "Freight traffic
is very heavy," said he, "but the road is
in first class shape and can handle every
bit of it as nicely as it does its fast
passenger trains." For the month of July
the Wabash earned \$1,057,352 against
\$837,902 last year. From Jan. 1 to July
31, the Wabash earned this year \$8,899,-

A scheme is now being considered by
the Knights of Labor which is of vast
importance to local coal dealers. They
contemplate a combination for the coming
winter. The plan is as follows: After
learning the amount of coal each mem-
ber of the order is likely to consume, a
purchasing committee will be appointed
to wait upon dealers and get figures per
ton on the whole amount. Coal men
from abroad will be consulted as well as
local dealers, and the contract will be let
to the lowest bidder. The Knights are
several hundred strong in this city, and
if the foregoing scheme is put in opera-
tion the result will be disastrous to
some of our coal dealers.

W. Wright Rockhill, the pleasant
city clerk, writes a member of The Sen-
tinel staff from Narragansett Pier that
he expects to be home this week. Mr.
Rockhill has received copies of Fort
Wayne papers containing letters alleged
to have been written by him and articles
saying he was at Cape May. Mr. Rock-
hill writes that he is willing the news-
paper men shall enjoy themselves at his
expense, but he cannot see much fun in
it himself, as he has been sick almost
continuously since he left until two
weeks ago. Most of this time he was
confined to his bed and did not have
much pleasure. He says he is improv-
ing rapidly now and reports that F. Keith,
Ed. Golden, Theodore Thibault, Mr. and
Mrs. Will Fleming, Mr. and Mrs. Angel,
Mrs. Ellsworth and other Fort Wayne
people at Narragansett Pier.

Dr. J. M. Dinnen was called to Chi-
cago by a telegram announcing the death
of his mother, whom the writer knew to
be a most estimable lady. She had the
pleasure of seeing her sons grow up
about her successful in theology, medi-
cine and mercantile business.

KILLED HIMSELF.

Alvan Sorg Sends a Bullet
Through His Brain.

Yesterday afternoon Alvan Sorg ran-
tered to the bank of the St. Joe river,
near the Tivoli garden, and without any
preliminaries sent a bullet through his
skull. He held the pistol, an ordinary
weapon to his head, to the front of his
above his right ear. Death was instan-
taneous and his suffering was brief.

The suicide was witnessed by a gentle-
man and two ladies and when they ap-
proached the young man he was a corpse.

The dead man was speedily recognized
as Alvin Sorg, an employee of Trunkley
& Scherzinger. Mr. Primus Scherzinger
was his uncle and it seems he has
long been eccentric. About a year ago
his freak was to fast, until he almost
starved himself to death. He has never
been in the best of health, but managed
to be about the jewelry store and did
some work there. No one believed he
would end his life as he did and yester-
day he left no intimation of his inten-
tion.

Deputy Coroner Stallhorn held an in-
quest in accordance with the above facts
and at 3 o'clock this afternoon the su-
icide was buried. The young man left
Germany to avoid army service and the
fact that he was liable to arrest on return
there preyed on his mind.
